

Religious Education

At the heart of our warm and loving school family is Religious Education. Through learning about Jesus, we discover how to live out our beautiful mission: 'Recognising Christ in Everyone.' We want our school to be a happy, safe space where children feel deeply valued and cared for as unique individuals, each created in the image and likeness of God.

The values of our faith gently shape our daily life together. We weave moments of quiet reflection, prayer, and liturgy into our day, giving children the time and space, they need to grow spiritually and morally. Our school chaplaincy lovingly supports both our children and staff along this journey.

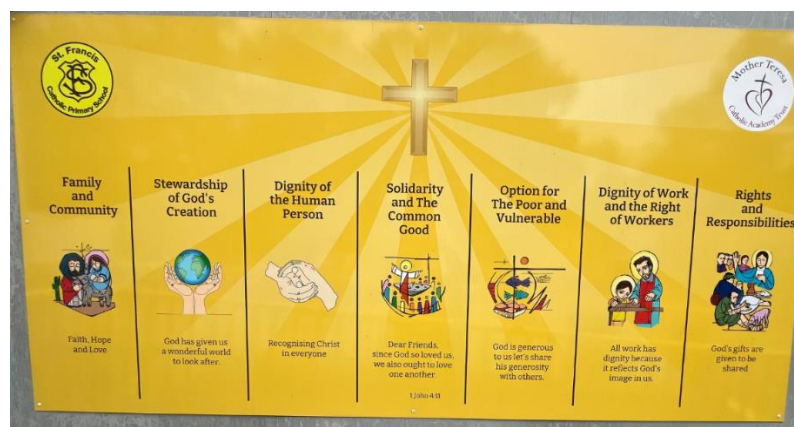

As our recent CSI inspection highlighted, our school is a "wonderfully stimulating Catholic environment" where "relationships are a strength of the school, resulting in staff and pupils having a strong sense of belonging."

To guide our learning, we follow a curriculum called 'Lighting the Path.' This step-by-step journey guides children from Reception all the way to Year 6, following the rhythm of the liturgical year and meeting all the guidelines of the Religious Education Directory. Through creative and thoughtful lessons, children explore Catholic beliefs and practices here at home and around the world.

We love helping our children grow into confident, thoughtful young people who can speak happily about what they believe. We encourage them to look at the world with a caring heart, ask big questions, and think about how they can live out their faith in their everyday actions. Our inspectors beautifully observed that this creates "a culture of welcome across the school, where all are valued."

Rooted in love and respect, our teaching helps children appreciate their own self-worth while showing deep kindness to everyone around them—whether they share our faith, follow another religion, or have no faith background.

Guided by Catholic Social Teaching, we joyfully learn how to look after our world, care for those in need, and put love into action locally and globally. Together with our relationships and health education, we celebrate the whole child, helping everyone grow up feeling safe, respected, and fully loved.
